incurred by the Tiptur Town Mly for the electrification of the water works may be sanctioned, half the cost being met out of the H S Grant for the current year

The Municipal Council has an investment of Rs 7635 in the Govt Savings Bank and the income & expenditure for 41-43 are noted below. Opening balance 12,162

Gross income ~~51,265~~ 39,103 — Normal income 36,626
" Expdr 41,346 — " Expdr 31,963

Closing balance 9,919

It is seen that the normal income expenditure is within the normal income and the financial Conditions is fairly satisfactory

Submitted for orders

Sd 26/12 At against an estimate of Rs 4500/- sanctioned by the Govt for the purchase of an electric motor pump for the water supply plant at Tiptur, a sum of Rs 7,250/- was actually spent & pumps, the total capacity of which was 50 HP were actually purchased. At the time when the purchase was made the Mcl had no intention of approaching the Govt for a grant. As an after thought the Mcl has been now asking the Govt for a grant equal to half the cost of the pumps i e Rs 3625/-. The proposal

Sir,

C NARAYANASWAMI NAIDU, Esqr., B A , B L ,
Secretary to the Government of Mysore,
Law Department, Bangalore

Re Sanctioning half the cost of the electrification of the water works at Tiptur, as Government grant

In forwarding herewith in original, the connected records received from the President, Town Municipal Council, Tiptur on the above subject, I have the honour to state as follows -

The water supply scheme of this town, estimated at a cost of Rs 52,835/- was sanctioned by Government in their order No L 2403-8/Ml 143-32-3 dated 16th September 1932 The scheme was completed with an outlay of Rs 56,338/- and Government were pleased to accord sanction the grant of half the cost of the scheme amounting to Ps 28,169/- In addition to their quota in this behalf, the Municipal council, have also spent a sum of Rs 12,775/- for affording water facilities to the western extension The total cost of the scheme including the cost of the five borewells sunk towards the scheme have come up to Rs 77,305/-

As it was found difficult to ensure adequate supply of water to the town owing to the unsatisfactory working condition of the 36 H P Oil engine, on account of its continued service for over 13 years and also of the Inter-national difficulties in regard to the supply of crude oil, required for running the engine etc the Municipal Council obtained sanction of Government in Government order No L 6310-12/Ml 28-40-67 dated 21-2-1941 for incurring an expenditure of Rs 4500/- in order to purchase an electric motor pump for the water works of this Municipality

5

1 Sept

7252-56.
7 May 42

The President states that as a 50 h p motor was not available anywhere in India on account of Inter-national difficulties, three independent motors of a total capacity of 55 H P were purchased and installed, incurring an expenditure of Rs 7256/- (vide details furnished in the enclosed statement*). As the cost involved and spent out of Municipal funds was considered to be heavy and also in view of the fact, that Government grants have not been sanctioned to this town Municipality for the past ten years, the Municipal council, at their meeting held on 30-7-1942 have resolved that Government may be requested to accord sanction to a moiety of the expenditure incurred in this behalf as Government grant as in the case of other Municipalities

I request that necessary orders of Government may be kindly obtained in the matter

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Tumkur District

C Narayanaswami Naidu, Esq B A B L,
Secretary to Government, of Mysore,
Law Department, Bangalore

Sir,

Re Grant of half the cost of the electrification of the Tiptur Water works, as Government Grant

With reference to your letter No. 5709/M1 73-42-6 dated 3-10-1942 enquiring whether the purchase of the three motors of a total capacity of 55 H P at a total cost of Rs 7252/- and odd against the authorised expenditure of R 4500/- was made through the Stores Purchase Committee etc, I have the honour to forward herewith, in original, the entire records received from the President, Town Municipal Council, Tiptur and to state as follows -

The President states that the total cost of the electrification of the water works of the town was Rs 7252/- vide details furnished in the enclosed statement The Sanitary Engineer who was consulted in the matter opined that if the machinery had to be purchased through his office, sanction of Government was necessary and that indent for the same had to be placed through the Secretary, Stores Purchase Committee By the time, these formalities were gone through the limited stock on hand might be exhausted and none might be available for the use of the Municipality and as such, he advised the Municipality to purchase the machinery and arrange for its installation at the expense of the Municipality As a 50 H P

50 H.P. motors not available anywhere in India on account of the international difficulties, tenders were called for from Messrs. Kumlah, Engineer, Bangalore Associated Electrical Industries, India Ltd., and the General Electrical Company India Limited for the supply of three motors, one of 10 H.P., another of 15 H.P. and a third of 25 H.P. As the rates quoted by Messrs Associated Electric Co for the 10 H.P. and 15 H.P. motors, the only firms from whom they were purchased were the said firms. As a 25 H.P. motor was not available from any of the above said firms, a 30 H.P. motor was purchased from Messrs General and Machinery Co., Bangalore at a cost of Rs. 5,203-6-0 in view of the fact that the rates of machinery were abnormally increasing day by day

It is further stated by the President that even for the wiring of installation, the lowest tender of one Nagappa, was accepted and the work got done by him

I have the honour to be,
Sir,
Your most obedient servant,

P. Ramachandra Rao
Deputy Commissioner,
Tumkur District
